URIQUE	YES	

While many tour companies travel along the canyon rim, this tour veers off the well-worn track into the depths of Batopilas canyon on an adventure that will introduce our guests to an eclectic experience. We prepared this comparison for those who have been curious about the length and higher price of our tour, so you may see how our canyon adventure differentiates from shorter tours.

Though our tour does not include a domestic flight within Mexico (approximately \$6000 MXN), it does include 7 more nights in hotels and a much longer travel distance to reach unique and rare celebrations that are not part of the tourist circuit.

Some of our activities are optional. These include visiting Topolobampo Bay on day one, as this tour can only happen for those who arrive by around 9 AM. Other optional activities include light river-rafting, zip-lines, ATV rentals and flying a Cessna plane through Sinfrosa Canyon. We have also marked Chihuahua City as an option because guests who love history may feel inclined to add an extra night to visit the best of the centro. Chihuahua has an extensive and important history for enthusiasts to enjoy.
